## Affected charts and Notices

Underrättelser för sjöfarande (Ufs) is an official Swedish publication which provides information pertaining to shipping in the Baltic Sea Area and Kattegat, as well as Skagerrak east of a line drawn between Hanstholm and Lindesnes.

The information on foreign waters is largely confined to significant occurrences which may affect Swedish charts. Ufs is thus wholly unsuited for the purpose of keeping BA-charts and/or other national charts updated.

An asterisk (\*) in front of the number denotes that the notice is based on information obtained from Swedish source material and that the details contained therein affect Swedish waters.

When the letter (P) is adjacent to the notice number it serves as an indication that the notice is of a preliminary nature. Such notices will later be replaced by corresponding ones containing definitive information.

Similarly, when the letter (T) is placed adjacent to the notice number it denotes that the notice is of a temporary nature. In case no period of validity is given, this type of notice will be rendered invalid either when a new Temporary Notice is promulgated or if pertaining conditions cease to exist.

Bearings are true and given clockwise from 000° to 360° and, when given in conjunction with lights, indicate a direction from seaward.

Featured chartlets are primarily intended to simplify chart correction work and are not always true to scale. In general, they show the largest charted scale available for respective area.

Responsibility for the factual content published in Ufs rests with the informant.

Chart corrections and other information attributed to a specific geographical area can be found under NOTICES. Other information is found under ANNOUNCEMENTS, starting on pg. 3.

The periodical Ufs is normally published every Thursday and can be downloaded as a PDF-file from the homepage of the Swedish Maritime Administration. Note that as the file is automatically generated from a database unintentional page breaks may occur at random.

Further information on the use of Ufs can be found in the annual publication *Ufs A*.

## Reporting dangers and errors

All observations concerning floating aids to navigation, unlit beacons and lights, objects adrift or any other occurrence which may have a detrimental impact on safety at sea are to be forwarded to Sweden Traffic at the earliest possible opportunity.

## South-Eastern Baltic

**13824 (T)**

**Chart: 6, 62, 7, 71, 731**

**Sweden. South-Eastern Baltic. E of Gotland and Gotska Sandön. Pipelaying works, 'SOLITAIRE'. Nord Stream 2.**

Expired notices: 2019:743/13783(T)

Time: March 1 - June 2019. Note that the dates are preliminary and may be changed.

The construction of a new gas pipeline is proceeding in the waters east of Gotland . The pipelaying operation moves in a northeasterly direction, along the eastern coast of Gotland and further towards Gulf of Finland.

The work is carried out by pipelaying vessel 'SOLITAIRE/9HA4114'.

Transport of pipes from Karlshamn to pipelaying vessel will be carried out by 'NORMAND NALEY/LCOS', 'STANDARD PROVIDER/MCES9', 'SYMPHONY PROVIDER/PCVX', 'ALEGRIA/LAFU8' and 'FAR SOLITAIRE/LDYF'. Due to restricted manoeuvrability of pipelaying vessel, a minimum CPA of 1 NM is requested.
