ANNOUNCEMENTS

* 14913 (T)

Chart: 6181

Canal 'Södertälje kanal'. Risks of navigating close to sheet piling.

See: 2020:790/14654(T)

Time: Until further notice

In the marked out area in the chartlet there are sheet piling mounted along the sides of the canal which poses a risk for mariners. Sharp edges along the sheet piling close to the surface, depending on the water level, might be hard to see and can cause serious damage to boats and people onboard. The sheet piling itself can also pose a risk for injuries.

It can also make mariners believe that the depth is greater than it in fact is. No dredging has yet been undertaken and the depth is unchanged.

All mooring at the sheet piling is strictly forbidden and signs will be posted along the canal to inform about that.

Information will also be given to all mariners using the lock.

Mariners are advised to navigate with caution in the area.

Sheet piling along the canal between a) - b)	a)	59-11,0N	017-39,1E	Igelstaviken
	b)	59-12,3N	017-37,4E	Mälarhamnen

* 14847 (P)

Chart: 6142

Sweden. Northern Baltic. Stockholm. Nacka. Skurusundet. Bridge under construction.

Expired notices: 2020:799/14798(P)

Time: Until autumn 2022

A bridge is being built just south of the existing bridge in Skurusundet.

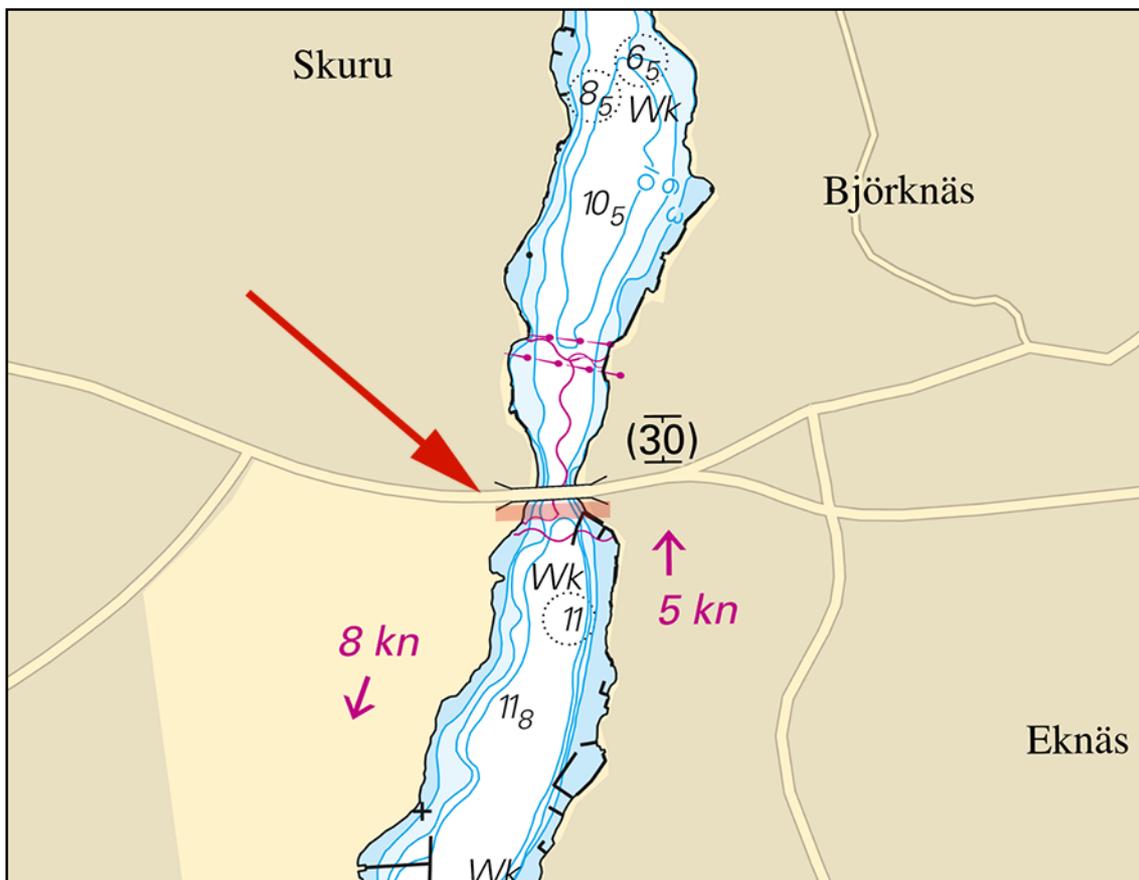

In order to limit the spread of sediment, screens will be mounted which restricts the passage width to 23 m in the middle of the fairway.

These screens will be removed in 2021.
