Affected charts and Notices

Each PDF-file consists of a number of notices also accessible on www.sjofartsverket.se/ntm

Each booklet contains information on changes made to official Swedish nautical charts, as well as essential information on occurrences that pertain to safe navigation in Swedish waters.

Information available on foreign waters is limited. Ufs is not suitable for the task of keeping BA-charts and other nautical charts updated.

Note: Unintentional page breaks may occur as the PDF-file is generated automatically.

Announcements – General information, e.g. new chart editions, statutes/decrees from national authorities

Notices – Chart corrections and temporary/preliminary notices for a given geographical location

An asterisk (*) in front of the notice number denotes that the notice is based on source material obtained from a Swedish national source and that the details stated therein affect Swedish waters.

When a notice number is followed by a '(P)' this signifies that the information contained therein is of a preliminary nature. An upcoming notice containing a chart correction will replace the former.

Similarly, when the letter '(T)' is used this indicates that the notice is of a temporary nature.

In case no period of validity is stated, such a notice will be invalidated either when a new temporary notice or a chart correction replaces it.

Information in temporary and preliminary notices are generally available as an update to ENC. In case ENC updates are not available, the notice will state 'Not shown in ENC'.

Bearings are true and given clockwise from 000° to 360° and, when describing a light house beam, indicate a direction from seaward towards shore.

Note: Chartlets are intended to simplify chart correction work and are not always true to scale. Generally, these pictorials show the largest charted scale available for respective area.

The respective informant is responsible for factual content.

Please refer to more information on the use of Ufs in the official Swedish publication **Ufs A**.

Reporting dangers and errors

All observations concerning floating aids to navigation, unlit beacons and lights, objects adrift or any other occurrence that may have a detrimental impact on the safety at sea are to be reported to Sweden Traffic at the earliest possible opportunity.

Lake Mälaren and Södertälje Canal

*** 17564 (T)**

Chart: 6181

Sweden. Lake Mälaren and Södertälje Canal. Södertälje kanal and lock. Fewer locks in Södertälje during summer 2023.

Time: Summer 2023.

The work in the canal restricts everyone who passes Södertälje by leisure boat, leading to longer waiting times.

Passage through the lock will take place every two hours instead of every hour according to the low season schedule.

For more information, please visit www.sjofartsverket.se

Kattegat

* 17553 (T)

Chart: 925, 931

Sweden. Kattegat. Gothenburg southern archipelago. Särö. Risö. Diving operation.

Time: April 11 – July 16, daily 08.00 - 17.00 LT

Diving work is performed inside the marked-out area in the chartlet.

The operation is sensitive to the influence of shipping, mariners are thus advised to pass with reduced speed and at a safe distance.

Diving flag 'A' is hoisted whenever divers are in the water and a virtual AIS marker, 'DIVING OPERATION', denotes the location where work is undertaken.
