Expired notices: [2026:1107/19927\(T\)](#)

Vessel traffic is now permitted again in the area around the cable ferry that operates between Bohus-Malmö and the mainland. The previously closed area is limited by the coordinates in the table below.

The area was closed due to the ice conditions in the area. The cable ferry's cable risked being on the ice, making it impossible for vessel traffic to pass through the area.
